

## Transformer controller VRDE 1.5

**ÖSTBERG**

VRDE for AC motors. A manual 5-step transformer controller with 0-position and high/low speed switch for speed control of voltage controllable single-phase motors.

Changeover is done with a potential switch e.g. timer, thermostat or humidistat.

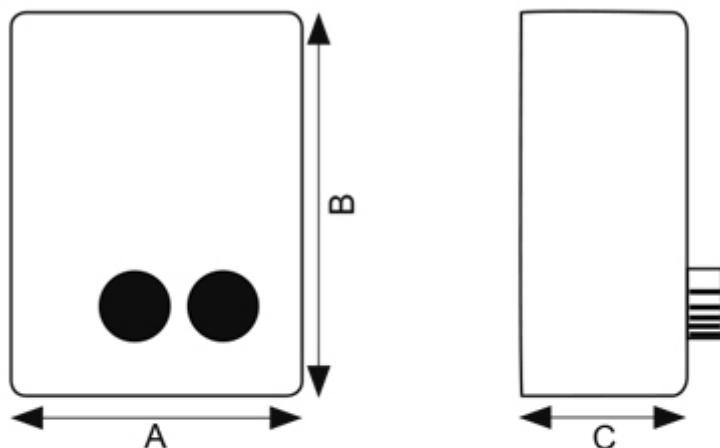

Enclosed in a durable PVC housing.

Outgoing voltages:

VRDE: 80V, 100V, 120V, 150V, 170V, 190V and 230V

**TECHNICAL DATA**
**9500062**  
**VRDE 1,5**

Voltage	230 V
Frequency	50 Hz
Optional frequency	60 Hz
Current	1.5 A
Weight	3.9 kg
Enclosure class	54 IP
