

## ECO MONITOR DRIVE CONTROLLER

Model	Monitor
Product number	735029
LVI Code	7820193
EAN Code	6410457350292
Weight	Gross: 0.245kg, Net: 0.245kg

Description: Printed Circuit Board (PCB) for controlling VILPE ECo roof fan operation. Can monitor rotation speed signals from 1-5 fans; multiple boards can also be linked together to allow for the monitoring of more fans. Functions include an isolated alarm output with a 15-20 second alarm threshold for one tachometer pulse per revolution, as well as a faulty fan LED. Adjustable 0-10 V speed control input and 10 V 1 mA operating voltage which can also be provided by the fan itself (Patent 2431303). Four fixing holes are available for mounting.

Contents: ECo Monitor, instructions.
